#meandmyself

THE ATLANTIS HAT IS AN INSEPARABLE PART OF OURSELVES.

Objects, passions, activities, hobbies that represent us, define us, indeed, are the completion of our being. The silk-screened objects on the hat are the outward manifestation of this part of us. For this reason, the hat is not a simple object, but a way of expressing ourselves, of being ourselves.

#meandmyself

Our values

ETHICS, RESPECT, EXCELLENCE.

These are the principles which our company philosophy is based on. A kind of approach where transparency, correctness and reliability are an essential prerequisite to guarantee not only a flawless service and product, but also a relationship based on mutual trust and on strong and profitable partnership.

WE ARE A CUSTOMER ORIENTED COMPANY.

Our distinctive feature has always been the one of giving you the possibility to choose and customize products of high quality.

The Atlantis Sustainability Project has been developed in collaboration with:

Università
Ca' Foscari
Venezia

We believe in a sustainable future

ATLANTIS SUSTAINABILITY PROJECT.

Being sustainable is not an abstract concept, but a daily behaviour. It is about the choices and lifestyles of individuals, but that is not all. It must above all be about the choices made by businesses: it is a new business model. Each year we distribute millions of products throughout the world. We are therefore aware of the role we can play in contributing to a more sustainable future for the environment, for customers who choose us each day and for all the people who collaborate with us. That is why we work responsibly, creating accessories with a sustainable impact on the world. We know that we have a long and demanding journey ahead, but we will try and improve step-by-step.

Discover more in the Atlantis Sustainability online page.

Discover the story of your Atlantis Product and follow its journey!

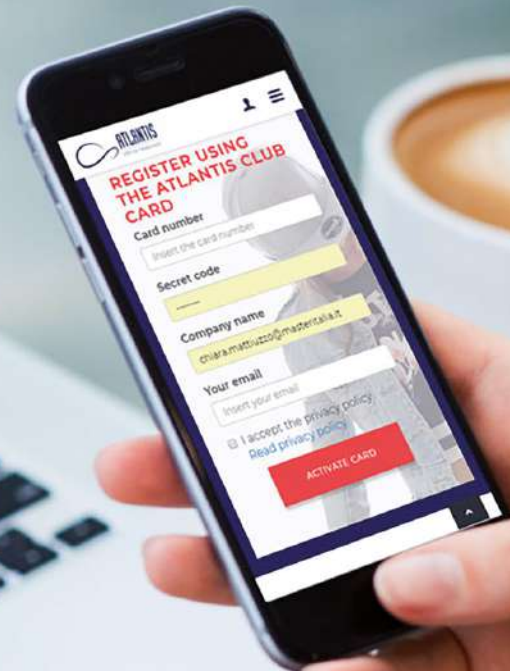

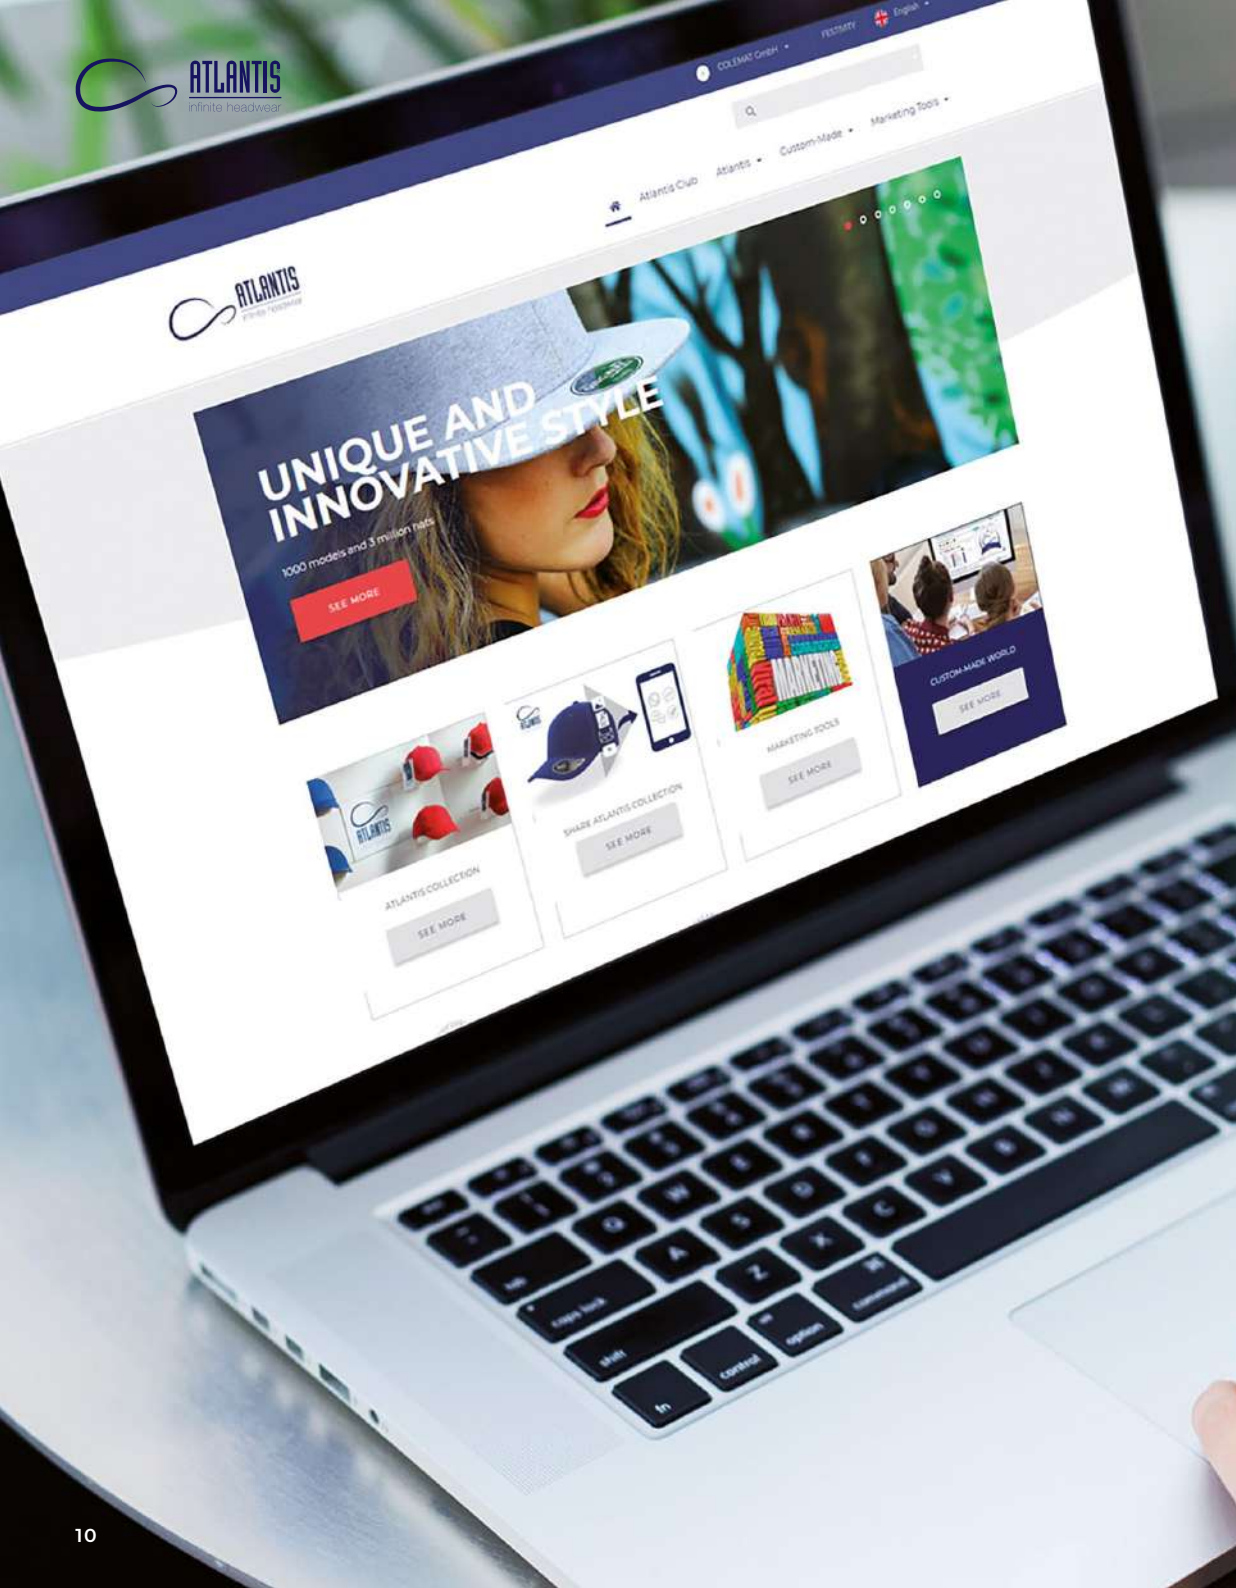

Each Atlantis product has its own story, with a specific identity and a certain origin. Atlantis wishes to share this story with its consumers, providing them with full transparency for their own brand and awareness of their supply chain. A “traced” product is a “clear product”.

The TRACEABILITY guarantees to the consumer a “clear passport” of the product. This is the reason why, from now on, our products will include even more information as PO number, certain place of origin, destination of the product and importer.

By scanning the **QR CODE** in the inside label you will have direct access to all the information related to the purchased product.

With the **ATLANTIS CLUB CARD**, you can enter an exclusive, simple and innovative ATLANTIS area to design, manage and develop your business, thanks to the numerous marketing tools available.

- create customized catalogues for your customers;
- generate pages for your website;
- generate hangtags to send samples or give your showroom a personal touch.

And much more besides.

WELCOME TO THE ATLANTIS CLUB WORLD.

IN THIS AREA, YOU CAN:

- send FREE messages using SMS service, WhatsApp and Telegram as well as re-posting info on Facebook and Twitter;
- communicate with your customers more efficiently, exchanging images, technical sheets and videos;

The cap is interactive thanks to Atlantis Connect

MORE THAN JUST A SIMPLE CAP.

The great innovation able to transform the cap into a real interactive object:

ATLANTIS CONNECT, a tool of the brand new ATLANTIS APP, thanks to the use of NFC contactless technology incorporated in the Atlantis product, is able to communicate the history and the technical characteristics of the product itself through multimedia information, videos and web pages.

WHAT YOU CAN DO WITH THE ATLANTIS APP

The ATLANTIS APP sets out to be so much more than just a simple app, it is a real business tool able to give you direct access to the Atlantis world in an immediate and intuitive way.

P. 166

Drop shape sticker. The family of shapes.

MID VISOR
The shape of mid-visor caps is between the flat and curved visors, in perfect American Style.

CURVED VISOR
Typical Baseball cap visor.

FLAT VISOR
Typical Snap Back visor.

Diamond shape sticker. The family of technical details.

ORGANIC COTTON

The organic cotton used to produce certain fabrics is grown through low environmental impact methods and materials. Organic cotton is grown without the use of toxic and persistent pesticides and synthetic fertilizers, maintaining by so doing soil fertility and building biologically diverse agriculture.

UNI CAP

An innovative concept baseball cap design and fabrication process using a truly unique construction technique resembling that used in knitting to create fabric in a rounded shape, completely free from panels and seams for maximum fit, comfort and customisation.

KNIT TECHNOLOGY

Knit technology is an innovative fabric processing technique very similar to knitting where the yarn is interlocked. This process gives the fabric three main characteristics - maximum absorbency, heat evaporation and breathability - making KNIT-CAP the best cap for the sports and outdoor world.

RECYCLED POLYESTER

In the textile world, recycled polyester or recycled PET is considered one of the fabrics with the lowest environmental impact. The yarn is, in fact, made from polymers obtained by recycling plastic bottles.

ANTI BACTERIAL

The silver fibre used to make bacteriostatic yarn inhibits proliferation of the bacteria present, while preserving the normal bacterial flora on the skin and guaranteeing maximum protection, softness and comfort.

GREEN

**WE DESIGN A
SUSTAINABLE
FUTURE.**

Atlantis believes passionately in "development that meets the needs of the present without compromising the ability of future generations to meet their own needs. For Atlantis, sustainability means living and acting each day with conscience and commitment towards future generations, reformulating its own way of thinking, designing and producing quality products with a sustainable impact on the world.

atlantis-caps.com

ORGANIC
COTTON

THE MOST SUSTAINABLE COTTON, GROWN ETHICALLY WITHOUT THE USE OF HARMFUL CHEMICAL SUBSTANCES.

The sustainability of the fabric meets ATLANTIS CONNECT technology.

Fabric made from organic cotton grown using low environmental impact methods and products meets Atlantis technology to effectively explain and communicate the organic cotton growing process and the benefits to man and the environment. ATLANTIS CONNECT, thanks to the use of NFC contactless technology incorporated in the Atlantis product, is able to communicate the history and the technical characteristics of the product itself through multimedia information, videos and web pages. Just download the ATLANTIS APP to access all the information and curious facts about the product.

NEW **GREEN CAP**

Main Fabric: 100% certified organic cotton twill

MORE THAN JUST A SIMPLE CAP: THE ORGANIC COTTON INTRODUCED BY ATLANTIS CONNECT.

ORGANIC COTTON

Cotton grown using low environmental impact methods and products, without the use of toxic chemical pesticides and fertilisers which could persist in the cotton itself and in the environment. Organic cotton comes from controlled and certified organic cultivation. The use of natural fertilisers and non-aggressive treatments leaves the cotton fibre intact for a naturally soft, breathable and safe product. Organic cotton is, in fact, a non-allergenic fabric.

ATLANTIS

RECYCLED
POLYESTER

TO DESIGN A MORE SUSTAINABLE FUTURE, WE ARE FOCUSING ON FABRICS DERIVING FROM RECYCLED PLASTIC.

The sustainability and versatility of the fabric meets ATLANTIS CONNECT technology.

In the textile world, recycled polyester or recycled PET is considered one of the fabrics with the lowest environmental impact. The fibre is, in fact, made from polymers obtained by recycling plastic bottles. Once again, the product meets with Atlantis technology to effectively explain and communicate the process used to obtain the fibre and all the benefits for the environment and its sustainability. ATLANTIS CONNECT, thanks to the use of NFC contactless technology incorporated in the Atlantis product, is able to communicate the history and the technical characteristics of the product itself through multimedia information, videos and web pages. Just download the ATLANTIS APP to access all the information and curious facts about the product.

NEW **RECYCLED CAP**

Main Fabric: 100% certified recycled polyester twill

medium shape structured curved visor 6 panels tear away label velcro closure

black navy royal orange white

ATLANTIS SUSTAINABILITY IS EXPRESSED IN AN ECO-COMPATIBLE FABRIC MADE FROM RECYCLED PET.

RECYCLED PET

Fibre made from polymers obtained by recycling plastic bottles. The fabric is eco-compatible, as the constituent raw materials come from recycled resources (plastic), without compromising the high quality and breathable properties of the fibre.

NEW **RAPPER RECYCLED**

Main Fabric: 100% certified recycled polyester twill - **Side&back:** 100% polyester

THE ECO-FRIENDLY HAT, PERFECT FOR THE OUTDOOR WORLD AND SPORTSWEAR.

DYE FREE TECHNOLOGY

Eco-friendly technology involving colouring the fabric by hot transfer from the colour polymers directly to the yarn without immersion in water, avoiding waste and the emission of dyes into the water.

HIGH PERFORMANCE TECHNOLOGY

INNOVATIVE FABRICS AND PROCESSES FOR A REVOLUTIONARY WAY OF CONSIDERING ACCESSORIES.

From the most ecological materials to the most high performance fabrics, for Atlantis, textile innovation means consciously investing in "smart" innovative fabrics and processes to obtain a high quality product with high performance characteristics that represent a plus for the product and added value for the consumer.

A NEW CONCEPT CAP DESIGN AND FABRICATION PROCESS FOR MAXIMUM FIT AND COMFORT: UNI-CAP.

Uni-Cap. Innovation at the service of fit and comfort.

UNI-CAP is an innovative concept baseball cap design and fabrication process using a truly unique construction technique, resembling that used in knitting to create fabric in a rounded shape, completely free from panels and seams for maximum fit and comfort. This type of seam-free cap fabrication technique also offers great product customisation potential.

NEW **UNI-CAP PIQUET**

ATLANTIS
GORE-TEX

88

WINDPROOF

The volume of air that passes through one cubic foot of fabric in one minute (cfm) is 1.0 or less, creating a truly windproof membrane.

BREATHABLE

The pores are 700 times larger than a water vapor molecule which means perspiration passes right through. This is what makes the membrane breathable.

WATERPROOF

The microscopic pores on the membrane are 20,000 times smaller than a water droplet, which means water droplets can't pass through.

GORE-TEX®

At the heart of GORE-TEX® products is an extremely thin membrane that's durably waterproof, windproof, and breathable. It has over 9 billion pores per square inch.

MADE IN EUROPE

BACTERIO STATIC

A BACTERIOSTATIC YARN DESIGNED TO PROTECT YOUR HEALTH AND COMFORT.

BACTERIOSTATIC FABRIC

The silver fibre used to make bacteriostatic yarn inhibits proliferation of the bacteria present, while preserving the normal bacterial flora on the skin and guaranteeing maximum protection, softness and comfort.

**FABRICS AND
DETAILS BOTH
DISTINCTIVE
AND PRACTICAL
AT THE SAME TIME,
IN PERFECT URBAN
AND CASUAL STYLE.**

URBAN

The urban style comes up-to-date with new colours and models. From the softer, more unstructured shape with a worn, almost vintage look created by washing the fabric, to the more sporty look with mélangé fabric in perfect casual style. The imitation suede fabric gives even the most street model of the trucker cap urban chic connotations. The casual style of the urban version comes from a combination of fabrics and colours, from the warmest, most natural earth colours to bright luminous shades reminiscent of street art, such as daring, provocative purple, more exuberant yellow and eye-catching, extrovert red.

COTTON CORDUROY HAT IN PERFECT CASUAL STYLE.

CORDUROY

The name derives from the French "cour du roi", the king's court where this fabric was used for the servants' hunting uniforms. It was known as the "velvet of the poor" as it was made from cotton, rather than silk as in the case of bagheera velvet. The fabric is very warm as the nap of the ribs forms a cushion of air with an insulating effect.

SPORTY JERSEY FABRIC MEETS THE MORE GLAM MÉLANGE. A DISTINCTIVE MIX, IDEAL FOR THE TRENDY URBAN STYLE.

JERSEY FABRIC

Jersey fabric was used in the 1800s by fishermen from the island with the same name in the English Channel. It is a naturally elastic knit fabric. It remained unknown outside that world until Coco Chanel used it for her haute couture creations from 1916 onwards. Today, JERSEY fabrics are particularly suitable for sportswear.

MÉLANGE FABRIC

A fabric made from different coloured yarns to create a nuanced not clearly distinguishable colour.

THE LIGHT IMITATION SUEDE FABRIC GIVES THE POPULAR TRUCKER SHAPE A TOUCH OF STYLISH GLAM.

SUEDE FABRIC

Suede dates back to the time of the American Indians who used this technique to tan the hides to make their clothes and accessories. The "suede" trend became fashionable among the masses with the hippy fashion of the 1960s and 1970s.

AN ABSOLUTELY ORIGINAL COMBINATION OF MICROFIBRE FABRIC AND THE STREET STYLE OF THE FLAT VISOR, THANKS TO THE PRESENCE OF LASER CUT HOLES FOR ABSOLUTE COMFORT.

MICROFIBRE FABRIC

Microfibre fabrics are twice as fine as silk and three times finer than cotton. The extreme lightness of the fibre makes microfibre fabrics soft to the touch. Four types of microfibre are produced, deriving from micro-filaments of acrylic, nylon, polyester and rayon fibres. A number of microfibre fabrics are obtained by combining two different types of fibre, such as for example nylon and polyester: these are defined as hybrid fibres.

THE NEW FLAT VISOR MADE FROM FABRIC SOFT TO THE TOUCH IN STREET CASUAL STYLE.

MOLESKIN

The term fustian (also known as moleskin) comes from El Frustat, the Cairo suburb where this fabric originated. It is a dense cotton fabric made from very tough yarns, napped and fluffy on the front and rough on the back. Its distinctive appearance is reminiscent of suede leather. It comes in numerous types, with a smooth or more or less velvety surface.

KNIT FABRIC. A PRODUCTION PROCESS KNOWN SINCE ANCIENT TIMES.

**Rib, plaited, plain or cable knit.
The winter beanie can become a versatile accessory,
fitting in with any type of use and style.**

Its typical great elasticity irrespective of the type of yarn used and high porosity make knit fabric unique and different from all others. The elasticity is due to the fact that the interlocked knitted threads act like a spring, giving way under tension then returning to their initial position as soon as the tension ends. For centuries, since ancient times, knitting was done by hand using knitting needles. The era of mechanical knitting began in 1589, when the Reverend W. Lee from Calverton developed the first frame knitting machine to make stockings.

A BEANIE IN PERFECT CASUAL STYLE COMBINES WAFFLE STITCH KNITTING AND WARM BOLD COLOURS.

WAFFLE STITCH

The texture of waffle stitch is reminiscent of the waffles it is named after. In the Middle Ages, this typical Belgian cake was cooked throughout Europe over embers between two cast-iron plates joined by a long handle.

KID

**THE ATLANTIS
WORLD OF KIDS
IS ALL ABOUT COLOUR,
FANTASY, DREAMS
AND WONDER.**

For them, we propose a dedicated line of high quality caps and beanies inspired by the most popular children's themes and colours.

Eddy

I play with him, I talk to him, I do my homework with him, I sleep with him. Eddy is always with me. I take him everywhere (even to school, I hide him in my backpack!!!). **Eddy is the robot who always loves me.**
